figure and the amount offered at 17 at rate was reported largely in exc/s of the demand. Foreign exchangs steaded to-day and turned from its recent downward course.

Reports were current of some large financing it, prospect by the New York Central, Pennsylvania and Missourl Pacific, and the effect of these requirements on the money market is to be considered. The large order placed by the Pennsylvania for new freight cars helped to stimulate the car equipment stocks. The expanded grain movement is a factor in the strength of those stocks also. The return of large amounts of stock which have been borrowed for delivery was reported from the Stock Exchange, revealing the reduction of the snort interest by the buying to cover which has accompanied the rise in prices. Irregular tendencies persisted thoughout the day.

Bonds were irregular. Total sales par value, \$7,206,000. United States 4s registered declined 1-4 per cent, on call.

none to arrive. Futures opened steady at
the decline with prices 11473 points off,
partly as the result of disappointing cables
from Liverpool and partly in sympathy
with extreme bearishness displayed in the
New York market. Around the opening
commission houses beugh, about as much
as they sold ,but later selling orders increased, and by the middle of the morning
the market was if a bale down. In the
afternoon session the decline was increased,
30 22 points. No attention was paid to
yety bal crop news from Texas and Okiahoma, where it was claimed the crop was
still deteriorating under drought and high
temperatures. The market closed steady,

steady. The continent and the Bank of England shares in the \$3,250,000 gold available.

The Stock Exchange reopened cheerfully in sympathy with foreign markets, and prices showed a genoral rise, home rails leading, and being actively supported on the coal trade settlement, while the better Spanish news induced more confident Paris buying among Kaffirs and foreign shares.

American securities opened slightly higher. Union Pacific advanced on good support, but the rest of the list cased off on realizing. At noon the market was steady, with prices from 1-2 higher to 1-2 lower than yesterday's New York closing, and was little changed until the Wall Street opening was received, when a sagging tendency occurred under offerings. After slight hardening the market fulshed uncertain, except in the case of Denver and Rio Grande, which was firm.

Commission on Vital Statistics Reaches
Satisfactory Conclusion of Work.
WASHINGTON, D. C., August 3.—Dr.
Cressy L. Wilbur, chief statistican /or
vital statistics in the Bureau of the
United States Census, has returned
from Parls, where he represented the
bureau on the international commission for the revision of the classification of causes of death. The meeting
was called by the French government,
and twenty-one different countries participated.

Dr. Wilbur states that most gratifying attention was given to the recommendation submitted by American
registration officials, and physicians.
The revised international system, which
will be in effect in the United States
and other countries on January 1, 1910,
will be much better adapted to American requirements than formerly.
The next decennial revision will be
will be in 1919, and it is possible that
the commission may be called by request of the American government to
met at Washington.

Dr. Wilbur was also an official delagate of the United States to the Intermational Statistical Institute, which
met at Parls immediately after the
session of the commission.

GETS RARE ART CROSS

Ivory Relie Valued at \$4,000 Given to St. Francis Seminary.

MILWAUKEE, August 3.— Arare old ivory cross, valued at \$4,000, a relic of the Jesuit missionaries sent to Wisof the Jesuit missionaries sent to Wisconsin in early days, was presented to the St. Francis Seminary during the meeting of the Alumni Association of the seminary by Bishop Fox, of Green Bay, it was the work of Francis Bugunois, a famous French carver of the sixteenth century, and was brought to Green Bay in 1832. It was saved when the old church was burned and later was placed in the new edifice.

Years ago it was discarded and was rescued by Bishop Fox from the garret where it had been thrown as valueless. It has been carefully restored, and is now, almost perfect. The crucifix is considered a marvel of art. A companion cross was recently bought by a European priest, who paid \$4,000 for it.

Individual Service

A small depositor some times hesitates to ask the serious attention of bank officers. But this bank fordially invites its patrons to confer with the officers relative to any financial matters. It is our conviction that the small depositor often really appreciates our assistance and profits more by it than do our larger patrons.
